Reset account password if forgotten
Update account info
Add products to their shopping cart
View shopping cart
Remove products from shopping cart
Update quantities of items in shopping cart
Checkout (using billing form)
View detailed product page and read reviews from other customers
Leave a review for a product

Admin Processes:
Add products to website
Remove products from website
View orders
Update quantities of items in store(DB will do this automatically, but in case something gets weird, good to have a manual way of changing)
